SHANGSONG XUE (NOFER)

(216) 301-4375 | noferssxue@gmail.com | cystronofer.github.io | www.linkedin.com/in/nofer-xue

EDUCATION

University of Pennsylvania, School of Engineering and Applied Science
M.S.E. in Computer Graphics and Game Technology — Expected Fall 2027
Relevant Coursework: Procedural Computer Graphics, Computer Animation

Boston University
B.A. in Computer Science — Sep 2024 - May 2026
Dean's List

Case Western Reserve University
B.S. in Computer Science — Sep 2022 - May 2024
Dean's Honor List and Dean's High Honors

WORK EXPERIENCE

Lilith Games — Shanghai, China
Technical Artist Intern — May 2025 - Aug 2025
- Created 10+ development tools in Unity (C#) and Blender (Python) for a major IP
- Submitted 60+ commits of feature development and bug fixes over 9 weeks via Perforce
- Coded ShaderLab shaders and C# scripts for various performance-critical visual effects
- Authored 15+ detailed documents during the internship for handover continuity

Newdaq Investment — Shenzhen, China
Quantitative Trading Researcher Intern — May 2026 - Jul 2025
- Contributed to a major strategy, increasing the predicted profit rate by 0.15%
- Improved 4 critical sub-strategies, reducing their errors by up to 37%
- Developed 2 sub-strategies that improved the Sharpe Ratio by 9%

CWRU Educational Game Development Team — Cleveland, OH
Chief Developer — Dec 2022 - May 2024
- Led project optimization and improved performance on the target platform by ∼25%
- Submitted 200+ commits throughout the 2 years on the team
- Delivered educational games to 3 local schools, reaching 250+ students

PROJECT

Customized Software/GPU Renderer C++/Python/OpenGL — Dec 2023 - Present
- Developed 3 renderer prototypes in different languages, totaling 8000+ lines of code
- Included an ECS system, file parsing, resource management, input handling, and profiling

Unity Practice Projects Unity Engine/C#/ShaderLab — Jun 2022 - Present
A variety of Unity projects experimenting with techniques including
- Game engine designs (Scriptable render pipeline, customized physics system, etc.)
- Rendering algorithms (Stylized rendering, volumetric lighting, procedural generation, etc.)

Game Jam Projects Unity Engine/C#/ShaderLab/Blender — Jun 2022 - Jul 2026
- Delivered functional prototypes within 48 hours, solo or as the sole programmer on the team

SKILL

Game Engine & Programming Language: Unity Engine, C++, Python, C#
Development & DCC Tools: Blender, Maya, RenderDoc, Adobe Photoshop, Adobe Premiere
Production Tools: GitHub, Perforce, Jira, Lark, Gen AI
